RS OFF ROAD

Have you ever wanted to get off the bitumen and make your own roads exploring the wide, open lands of our fabulous country? Then look no further than the RS Off-road range. With extensive research including market and customer feedback, Concept Caravans now deliver the RS Series with five layouts to choose from. Ranging from a compact 16' single-axle van, to a spacious 20'6" twin-axle, each van comes well-equipped, allowing for your experience to be enjoyed as planned.

The body sits on a dark grey 6" chassis, fitted with control rider suspension, dual shock absorbers, 17" wheels, d035 coupling and ALKO electric stability control. The composite aluminium clad exterior is complimented with high profile, black checkerplate, providing both protection and presence. You can expect to have all the requirements needed for off-road travel, such as lithium batteries, solar panels, dual water tanks, and a grey water tank.

Upon venturing inside the same "no compromise" philosophy applies, with lightweight, solid plywood interior giving a sleek modern look and feel. Your RS is waiting to be signed, sealed and delivered for a brand-new off-road experience.

Your time is now.

Experience a walk-through of our vans from the comfort of your own home! Jump on our website to see Virtual Tours of the vans interior at conceptcaravans.com.au
